CONFINED AREAS

MODEL RN-16

The only air tool designed to drive 3d thru 70d nails using from 50 to 125 PSI and only 4 CFM of air when nailing at maximum (approx. 50 8d nails per min.) speed.

MODEL FN-16

The only air tool designed to drive all sizes of finish nails. In one easy motion, the nail is driven and counter sunk into the hardest or softest finish. Will not leave tool mark.
