

SWAGING MACHINES

TYPE 1 SWAGING MACHINE

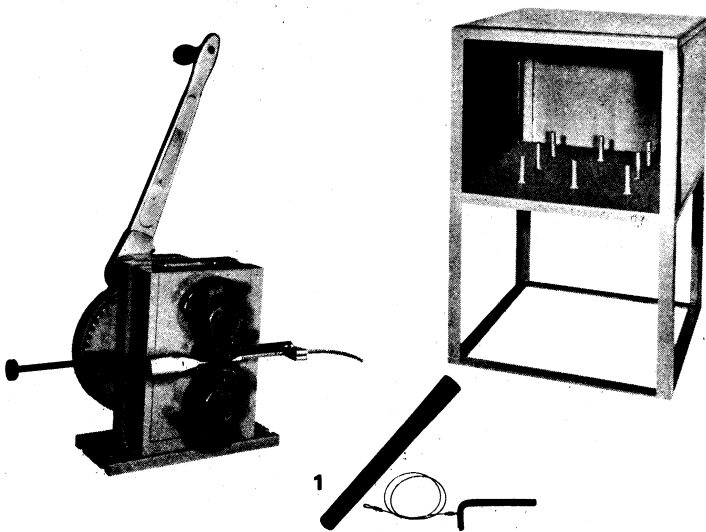

Conforms to Mil Spec MIL-S-6180

This portable, hand operated roll type swaging machine shown in fig. 1-1, will swage MS type terminals onto galvanized and stainless steel cables from 1/16" dia. up to and including 3/16" dia. Marine-industrial terminals can also be assembled if the terminals have the same outside dia. and bore dia. as standard MS terminals before swaging. Kearney Type 1 Roll Swaging Kit which includes the machine, a full set of roll dies, terminal gages, and feed guide adapters in a steel carrying and storage case, is pictured and itemized in Table I-1.
