### PORTABLE CABLE SWAGER KIT AT 520JK-REC.....

**AT 520J SWAGER**

This light weight portable unit is designed to precision swage cable terminals...even when used by operators with no previous experience. It can be used as a bench unit when mounted on the shock absorbing base or taken directly to the scene of operation.

Dies are for standard MS Sleeve Type and Ball End Terminals. Cut-off and trim dies are manufactured in sizes to cut cable up to 1/4" in diameter without fraying or crushing wire strands. The kit is furnished with swager and all dies (1/16-3/16).

### SWAGED CABLE TERMINAL PULL TESTER KIT

#### AT 520CTK-REC.....

The At 520CTK Portable Cable Pull Tester Kit is used in conjunction with the AT 520D and AT 520J Cable Swagers. It has been designed as a portable unit to enable Field Service Groups, Aircraft Manufacturers and Repair Depots to test swaged terminals.
