AIR SANDERS

150

The Model 150 is the perfect sander for applications where small size and light weight are needed. It features the same air motor and orbital sanding action as the Model 400, but a smaller pad size and 2/3 lb. less weight. That means more power per square inch of abrasive in an easy-to-handle tool and convenient single-handed operation.

The Model 150 meets current OSHA noise level standards.

APPLICATIONS INCLUDE:

- Feather edging ■ Finish sanding ■ Blending
- Blocking

Weight	3 lbs. 13 oz.
Stroke	3/16"
Air Pressure Required	60 to 75 PSI
Speed	4,000-6,000 RPM
Air Consumption	7-8 CFM (2.6 average SCFM)
Abrasive Area	18 sq. in.
